Dr. J. Lederberg
Department of Genetics
University of Wisconsin
Madison, 6, Wisc.

Dear Dr. Lederberg:

Regarding your kind offer to allow us to see your "set-up" for the transformation of bacterial strains, we were wondering if we could visit your laboratory on Thursday, March 20.

If this date is inconvenient, please let us know of a more suitable time. We would probably arrive at about 1-1:30 p.m. Since you are busy and there are several people on campus we wish to see, I am sure that we wouldn't take up more than an hour of your time.

Very truly yours

Richard M. Klein
